

REVOLUTION MINISTRIES

EVANGELIZATION IN AN APOSTOLIC AGE

Friends,

Recently I hosted a small group men's retreat in Lake of the Ozarks, MO - where men gathered around the core tenants of the Gospel for three and a half days.

A picture is worth a thousand words.

I feel like the images from this retreat express everything that I am trying to unleash into church culture through my missionary work:

Silence. Depth. Beauty. Meaningful Conversation. Creativity. Story.

As the retreat unfolded, I watched *familiar* Gospel truths become *unfamiliar* to the men who attended. It seemed as though there was an impulse of reflection during the weekend as many men would walk off by themselves, without their phone, and seem to get lost somewhere. That "somewhere" were the spaces of heart that were being recovered.

The pictures that you will see from this retreat show more of what I am about in the day-to-day and in the week-to-week with Revolution Ministries, as I try to help people recover the essential elements of living a life with God.

I want to re-emphasize that I am deeply committed to restoring the depth and breadth of the Gospel story in such a way that people become overwhelmed.

As always, my financial well-being is placed into your hands and entrusted to Gods care. I am grateful for your support!

Tyler Weber
